

MH-380 (parallel 2-needle)

MH-382 (tandem 2-needle)

High-speed, Flat-bed, 2-needle Double Chainstitch Machine

MH-382

MH-380

MH-380 • MH-382

Various attachments allow the machine to adapt to many different processes.

Many different attachments have been developed for the machine. This means that the JUKI MH Series sewing machine can adapt to many kinds of processes and specifications including hemming, welting and decorative stitching. Accurate stitching performance and durable finished seams are particularly necessary in the chainstitching process. JUKI ensures high-quality sewing with a higher degree of consistency with its unique looper mechanism and consistent condensation stitching mechanism. Furthermore, highly efficient operation is achieved by using a chain-off thread cutting device.

MH-380

(Parallel 2-needle, double chainstitching machine)
*Equipped with a lapping seam folder as standard

MH-382

(Tandem 2-needle, double chainstitching machine)

Stitch dial

Lever for condensation stitching

MH-380

The machine ensures outstanding reliability and durability.

It comes with JUKI's unique inclined crank type looper mechanism. This gives the machine outstanding durability. You can use the sewing machine for a long time without ever worrying about looper failure.

Stitch length can be adjusted with ease.

The machine incorporates a stitch dial for adjusting the stitch length. For lockstitch machines, which are the most popular type of sewing machines, the stitch length is also adjusted using a stitch dial. This means you can adjust the stitch length as desired without difficulty.

The machine is capable of performing consistent condensation stitching, ensuring finished seams of higher quality.

You can easily set the machine to perform condensation stitching by operating the lever. Condensation stitches that prevent the thread from fraying can be consistently sewn.

Many different kinds of attachments contribute to enhanced production efficiency.

Attachments (optional) have been prepared for many different applications, including sewing sides of jeans, slacks and skirts, hemming pockets, making decorative stitches on tape for sportswear. Furthermore, a chain-off thread cutter (AT-8, optional) that helps enhance production efficiency is also available.

DEVICES AND ATTACHMENTS

● **Chain-off thread cutter**

AT-8

Applicable machines: MH-380, MH-382
Class of work: Jeans, Working wear
Applications: Cut a chaining thread bridging two workpieces continuously sewn by chainstitch in the way that a knife blade of the cutter is dropped. Best suited for a continuous sewing on pocket openings of jeans or working wear.

Guide width mm (in)	Part No.
Tandem 2-needle	40042785
4.0 (5/32)	40042787
4.8 (3/16)	40042788
6.4 (1/4)	40042790
7.9 (5/16)	40042791

● **Down turn hemmer**

L050

Applicable machines: MH-380
Class of work: Jeans, Working pants
Applications: Hem jeans hip pocket mouth, especially suit for sections where high quality straight stitch is required.

Finished width (mm)	Part No.
14	MAL-0500POAO
12	MAL-0500MOAO

B: Finished width

● **Decorative tape attaching foot**

B050

Applicable machines: MH-380
Class of work: Sportswear, Training wear, Swimsuits, Uniforms, Boxer pants, Rompers
Applications: Stitch accent line attach tapes
Materials: Cotton bias tape, or plain woven tape for some limited process.

Finished width (mm)	Needle gauge mm (in)	Tape width (mm)	Part No.

● **Decorative tape attaching foot**

B051

Applicable machines: MH-380
Class of work: Ladies' wear, Children' wear, Sportswear, Uniforms
Applications: Attach decorative tapes and reinforcement tapes
Materials: Tape: Synthetic suede cloth tape, decorative tape, plain woven tape. Contact us for special type of tapes.

SPECIFICATIONS

Model name	MH-380	MH-382
		Parallel 2-needle
Max. sewing speed	6,000rpm	
Max. stitch length	4mm	
Lift of the presser foot	By hand: 5.5mm, By knee: 10mm	
Needle bar stroke	30mm	
Needle (at the time of delivery)	TV×7 (#14) #9~#21	
Thread take-up	Needle bar thread take-up	
Stitch length adjustment	By stitch dial (lockstitch)	
Condensation stitches	By lever for condensation stitching	
Looper system	Rocking type looper	
Looper stroke	22.6mm	
Elliptical motion	2.4~3.7mm	
Lubrication	Automatic	
Lubricating oil	JUKI New Defrix Oil No.1 (equivalent to ISO VG7)	
Needle cooler	Optional

JUKI CORPORATION HEAD OFFICE
 Juki Corporation operates an environmental management system to promote and conduct the following as the company engages in the research, development, design, sales, distribution, and maintenance of industrial sewing machines, household sewing machines, industrial robots, etc. and in the provision of sales and maintenance services for data entry systems.
 ①The development of products and engineering processes that are safe to the environment
 ②Green procurement and green purchasing
 ③Energy conservation (reduction in carbon dioxide emissions)
 ④Resource saving (reduction of papers purchased, etc.)
 ⑤Reduction and recycling of waste
 ⑥Improvement of logistics efficiency (modal shift and improvement of packaging, packing, etc.)
