With its high basic machine performance and practical components, Yamato LG strongly helps you make a difference in manufacturing high quality intimate garments.

- **High stitch performance - achieving real "Soft Stitch"**
Well-balanced seam minimizes tunnel and puckering, even on soft and lightweight fabric and make your garments more beautiful to look at and more comfortable to wear.

- **High machine performance - reducing operators' fatigues in use**
Yamato's precise manufacturing technology, based on long experience in high speed sewing machine production, enables smooth machine run. This feature helps stress-free operation for stable finishing quality.

- **TB**
Back Tacker (Solenoid Type)

- **AEF-31**
Compact Type Clamp System Automatic Tape Feeder

- **UT-18**
Automatic Under Thread Trimmer, with "Anti-Bird's Nest" Function

UT-18 device is Automatic Under Thread Trimmer, which also prevent bird's nest at the beginning of sewing for clean finish.

- **TL**
Compact Spotlight (Optional)
