

## Wave-free Finish, Deskillizing and Material Saving... Still a Lot of Room Left to Save, Even on Binding!

- "Active Thread Control" technology enables durable and stretchable seam, suitable for binding portion, which repeats stretch and strain.
- Variable Top & Bottom Feeder ensures wave-free neat finish with uniform grain of tape.
- SR device ensures secure tape cutting (with ATC device) with minimum wastage. Besides, the device helps your operator's left hand to control the work.
- Specifications:

3	5	5.6	1.4-3.6	1:0.7-1.2	4.0	6.0 (7.5)	5500	5
