

Yamato

VT1500 CLASS

2,3 Needle Feed-up-the-arm **All-rounder**

Yamato's VT Series is dedicated to ideal sewing experience, you never had before! Its various innovational designs set you free from your headaches, such as oil stain, "waved" finish, frequent skip stitches and uneven quality due to operators' fatigue. Besides, the machine can perform neat and uniform finish on both lightweight and heavy weight fabric with little adjustment. Furthermore, various fabric guides enable sewing covering, hemming, binding freely.

Yamato's VT Series, "The Feed-up-the-Arm All-Rounder", work for your further prosperity for the year around!

Yamato VT Series, is developed basing on Yamato's long experience of preventing oil leakage, to satisfy the various requirements of sewing factories. Its wide applicability & user-friendly design, creates perfect stitching & seaming. Meanwhile, it enhances the productivity, reduces the cost.

spreader locates on right side

easy to put/take out the fabric, no injury happens during the operation

stitch length can be adjusted by pushing button easy & quick

independent needle guard quick response to the change of material

differential feed as standard "no wave" finish

external thread take-up thread is supplied smoothly

cylinder length: 180mm easy to load/unload the fabric

No oil , no worry

Oil stain is one of the biggest headaches for all manufactures. VT, Yamato's origin, the expert of preventing oil leakage, supplies you perfect products without oil stain.

Yamato solution: Pump oil collecting system

Applicable for any thick/thin material

Yamato's unique sewing-related mechanism enables you smoothly sew any thick/thin material. You can get uniform, beautiful stitches even on pantyhose, the waist of winter sports with cord piped procedure.

Yamato's well-known perfect seaming & stitching

Long time continuous sewing test proved, Yamato's VT can run smoothly without any needle breakage/skip stitching, offering you perfect seaming & stitching.

→

Abundant optional guides

One machine is applicable for various sewing operations: hemming, covering, binding... , a real interlock all-rounder.

Absolute low noise/ little vibration, durable machine!

Epoch-making "vibration free" mechanism minimizes the noise and vibration, which minimizes the fatigue of operators, and consumedly decreases the unstable operation and injuries, enhances the productivity, ensures uniform finish! Moreover, low noise/little vibration proves less abrasion of the machine, which guarantees its longer running life.
