# **MO-6800S/DD10, DD22, DD23** Direct-drive, High-speed, Overlock / Safety Stitch Machine

# MO-6800D/DD10, DD22, DD23

Semi-dry-head, Direct-drive, High-speed, Overlock / Safety Stitch Machine

# Energy-saving servomotor is

**Features** 

• The direct drive system

Both the control box and the operation panel are

has been adopted.

integrated with

#### **Smart Devices**

#### The cover sensor unit and cover microswitch unit

The cover sensor unit and cover microswitch unit that detect 1, 2 and 3 (shown right) are closed tightly during sewing, thereby preventing the sewing machine from starting up unexpectedly.

1. Eye guard with an open/close senso

2. Cloth plate cover

## **MO-6800S(D)/DD SERIES**

The sewing machine is a direct drive type in which a control box and an operation panel are integrated with the machine head. The machine achieves a practical maximum sewing speed of 7,000 sti/min. The MO-6800D/DD series are eliminated oil stains on the sewing product with "dry" technology.

### Automatic thread trimmer with a material sensor

The MO-6800S(D)/DD Series of sewing machine is provided as standard with the side cutter with 2-point material sensor (DD22) and the Chain-off the thread trimming device with a 3-point material sensor (DD23). Under the full-automatic mode, the material sensor detects the presence / absence of the material to prevent the operator from erroneously operate the side cutter etc. In addition to the full-automatic mode, the manual mode and the semi-automatic mode can be selected.

3-point material sensor

Model	Direct-drive motor	Sensor control	side cutter	Chain-off the thread trimming device	Auto-lifter	Chain-off thread suction device	Remarks

DD22	•	2-point sensor	•	-	•	•	With device
DD23	•	3-point sensor	_	•	•	•	

## Operator fatigue reduction (LED light) Standard equipment with all series

For the LED light, the improved toning function with two additional colors (white / light bulb color) is provided. Illuminance of the LED light is adjustable in five levels. This LED light helps reduce the operator's eye fatigue who is engaged in sewing work for a long time.

Mixed color

## Operation panel and control box are integrated with the machine head

The energy-saving and highly efficient servomotor is installed in the direct-drive style. The sewing machine quick lystarts up and stops with increased accuracy, thereby demonstrating improved responsiveness.

#### **USB** port

The USB port is standard on the control panel and You can easily upgrade the software. The MO-6800S (D) / DD22, 23 has another one USB port for charging a smartphone, etc.
